

Existing Customers & Success Story

VPN & IP CLOUD

Customer pain point

- ▶ To find best solution to link HIG branch
- ▶ Slow connectivity due to overlapped firewall rules and equipment installed from several different provider

Solutions

- ▶ Install RB3011, RB951 and create VPN tunnel between server in HIG main and POS branch
- ▶ Backup / restore router setting
- ▶ Restructured and reconfigured routing and firewall for better connectivity
- ▶ Provide remote monitoring and maintenance support
